The United States Medical Purveyor's Office. The business of the United States Medical Purveyor, which for several years past has been transacted at in Grand street, will shortly be removed to a more commodious store, the present one being altogether inadequate to the requirements of the service. The large marble front store, corner of Broome and Greene streets, has been engaged, and is already rapidly filling up with medical stores of all descriptions. As soon as convenient of the Medical Purveyor, Dr. Satces are partitioned off the Medical Purveyor, Dr. Sat-lee, with his assistants and clerical force, will move district. The place is now very often besieged by volun-teers wanting extensions of sick furloughs or certificates of disability, and, as the number of this class of appli-cants may be expected to increase, rather than dimin-th, the necessity of having some central and evaluaten, the necessity of having some central and exclusive place of business is much felt by the medical director.

COMPENSION CONTROLLER HAWS.

The following correspondence between Colonel Tomptins, Assistant Quartermaster General of New York, and Mr. Rebert T. Haws, our City Comptroller, relative to a wharf suitable for the landing of sick and wounded solutions with the root, will be found blacesting.

kins, Assistant Quartermaster General of New York, and Mr. Rebert T. Haws, our City Comptroller, relative to a wharf suitable for the landing of sick and wounded soldiers arriving at this port, will be found interesting.— Assessant Quartermasters General 30 cmcz. New York.— Six.—The want of suitable wharf accommodations for the use of public and chartered vessels in the service of the United States, employed in and about this harber, and of the many small boats constantly running back and forth between this city and the several military posts in the harbor, has become a most serious inconvenience, and such as to cause great embarrassment to the officers, men and materials employed in, or required for the government service. We have new two small steamers under charter, one of which is employed principally in making daily trips to David's Island with sick and wounded men, and the other as a tug to be ready at call for such service as may be required at the several military posts in the harber, and for none of these things, I think you will admit, ought not to be. It has been suggested to me by Mr. G. W. Blunt that the pier at the southeast extremity of the Battery could be assigned to us to be used for government purposes only, without detriment to the corporation or infringement upon the rights of any one. This pier would accommodate us admirably, and I very much wish some arrangement might be made by which we could be put in possession of it. I am informed that, at the time the Corporation ordinance was passed for the Battery extension, a reservation was made for a pier for the use of the government; and now, as this extension seems to have been suspended, at least for the present, I induige the hope that we may be allowed the use of the giver respectfully, your obedient servant.
